Laparoscopic Instrumentation System

Surgical Innovations

Transforming Surgery Together

For over 30 years Surgical Innovations have been at the forefront of Minimally Invasive Surgery.

As surgical techniques continue to evolve, the demand for solutions which align to those advancements is key, whilst reducing the **impact on the environment**, as societally we become more aware of the footprint the provision of healthcare generates.

A comprehensive range of Laparoscopic Grasping Forceps and Dissectors, with a **durable** three-piece construct. This fully reusable system delivers a modular and ergonomic concept, ensuring Clinicians have a **seamless user experience**.

Logic™ also presents healthcare providers with an opportunity to **reduce investments**, streamline instrumentation sets and optimise inventory levels, as it adopts our cross compatible handle range.
